Ir is with pleasure that we learn of the preparation of the 路加講義 Luke with Comment and momilies. It is already written in Chinese by Rev. E. Faber and will be even more extended in scope than his 馬可講義 Mark with Comment and Homilies. The Delegates Wen li version is the text. After the explanation of the text there are given from three to twenty skeleton sermons. It makes a most compendious work for the educated Christians. It is to hoped that funds for its printing will soon be forthcoming. Mr Faber truly says that the great standard works of China are Commentaries. It further appears that these gentlomen then calmly proceeded to annex all the money they could find, and after collecting \$7.50 gracefully retired. A man-named An-Young Wong was charged before Mr Wedehouse to-day with being one of the four visitors, and a servant of the Club who appears to have been paralysed to such an extent by the occurrence that he could not run away, gave a graphic description of what took place. An interesting address by Mr Edwin Chadwick on the progress of sanitation was read at . Brighton on Aug. 15, at the summer meeting of the Public Sanitary Inspectors of Great Britain. The progress of the power of sanitation had been strikingly displayed, the lecturer said, in the military services. A quarter of a century ago the death-rate in the Guards was 20 per 1,000. It was now 6h per 1,000. The death-rate in the Home Army was 17 per 1,000; it was now about 8 per 1,000. But Germany beat us with her death-rate of 5 to 6 in 1.000. In France it was 10 in 1.000. in Austria 11, in Italy 11, in Russia 18. In the Indian army the old death-rate was 69 in 1,000. From 1879 to was reduced to 20 per 1,000, and now it was about 14 per 1,000. In the six years from 1879 to 1884 the aggregate saving was 16.910 lives; and, on the military estimate of £100 per life, the saving in money during the aix years WAS £1,691,000,

The total length of the line is 938 metres. and it commences with a gradient of 32 per cent., which is increased to 58 per cent. after the first 40) metres, and this is maintained for the rest of the journey. A single pair of rails is used throughout, with the exception of a few yards at half distance to permit the two carato pass. The motive power, electricity, is generated by two dynamos, each of 25 horse-power, which are worked by a water-wheel of 125 horsepower, erected upon the River Aar at its mouth at Buochs three miles away. Only one man is required to manage the train, and the movement of the cars is completely under his control. Om dynamo is sufficient to perform the work of hading up and letting down the cars containing lifty or sixty persons. At the end of the journey, completed in about fifteen minutes, at an ordinary walking speed, the car moves gently against a springbuffer, and is locked by a lever, without noise and without joiting the passengers. This interesting undertaking has been carried out at a cost of £25,000.

Live in the tropics is not so injurious to health as is sometimes made out. We observe from the Straits Times that Mr M. J. Carapiet, the oldest and much respected foreign resident in Singapore, celebrated recently the golden jubilee of his landing at Singapore. The gentleman is over 70 years old, and is in excellent health. Beyond a trip to Penang some years back, he has been all this time in Singapore.

One thing not generally known is that nutmegs contain a poisonous principle. A German scientific journal has called atton. tion to this unsuspected fact, and addressed words of warning on the subject to the public. The use of even half a nutineg has been found to give rise to symptoms of poisoning. It is true that there are other spices which have poisonous properties of some kind, but the nutmeg seems to take front rank in that respect. This awkward peculiarity of such a prominent article of Straits produce should be well borne in mind by consumers of that commodity. Precaution and circumspection may ward off serious mischief. Hence, it is prudent not to use much of it, and especially to see that no nutmegs get into the hands of children.

THE Penang Gazette gives the following description of the collision between the Kaison and the Graof van Bylandt :- A collision took place in port at about 4 p.m. on Friday (21st September) between the steamship Kaisow and the Dutch steamer Graaf van Bylandt, Captain Blamberg The latter vessel was lying at anchor in the roads, and the Kaisow, which was just coming in, tried to pass before her bow. When the captain of the Kaisow saw that this was impossible—the tide running rather strong at a collision. The captain of the Graaf van Bylandt seeing the danger coming let go his anchor-chain in about 80 fathoms of water, but with the only result that the collision was not so bad as it would have been had he not done this Two iron plates of the Graaf van Bylandt were cracked in consequence, but the experts allowed the ship ! to proceed to Atjeh all the same. Messra Sandiland Buttery & Co. have become seenrity for the Kaisow in the sum of £1,000.

> THE 'AUSTIN ARMS' HOTEL COMPANY.

To the Editor of the 'CHINA MAIL,'

the Company can mortgage the estate and so get say 3 per cent. on borrowed money to put to the earnings of the Hotel, or they can when completed sell the property either as a whole or else house by house at a profit of at least \$25,000, a very nice little sum to write down from the cost of the Hotel,

That the Company will ultimately drift into an Hotel Company pure and simple is almost certain, and that the judicious purchase by the Directors of the Crownest property will enable them to reduce the cost of the Hotel I feel sure. I do not anticipate any sudden jump in the shares, but when the Hotel is in working order I am confident it will pay a very handsome dividond and be a certain and safe investment.

at Fooeliow admittedly is, there is probano port in China where the first of October is looked forward to with keener interest. The reason of this is, that there is so much to make up for the comparative scarcity of game. If the sole charm of shooting consisted in making large bags. then indeed we should have but few followers of the sport here. But the keenest of sportsmen are mortal men after all, and intently bent, though they may be, on finding and killing game, they cannot fail to feel the influences of the truly delightful surroundings. The unparalleled beauty of the country over which they shoot and the exquisite purity of the air they breathe, combine to make the shooting in this neighbourhood real enjoyment. As far as the sport itself is concerned there are always sufficient pheasants to keep the shooting party constantly on the alort. It may be that an hour or two will sometimes pass without so much as the chance of a shot, nevertheless there is no flagging of interest. MOORE'S GOGO SHAMPOO

THIS WASH HAS PROVED ITSELF TO BE THE BEST PREPARATION EVER PRE-SENTED TO THE PUBLIC.

WASH.

THE Bases of this compound is made of Gogo Root. The natives of the Philippine Islands never use anything else for washing their hair; you never see them bald, and it is quite common to see the females with hair from 5 to 6 feet long. By using this SHAMPOO WASH as directed, you will nover be bald. The Proprietor offers the Wash to the public, being entirely confident that by its restorative properties is will surely arrest decaying hair, completely eradicate scurf, dandruff, and cure all disesses of the scalp; it does not contain any poisonous drugs, but, by its cooling proper-

ties allays the itching and fever of the scalp. Mr. Moore has succeeded in being able to put this Wash up in bottles without allowing it to forment, and he will guarantee it to keep any length of time in any climate. CAMPBELL, MOORE & Co., Ltd.,
